ROW THEY ARE WRONGLY APPROPRIATED BY UNIFORMED "VETERAN" ORGANIZATIONS, ETC.

A number of the officers of the National Guard of this State have begun an agitation to prohibit the use of the names and numerical designations of regiments by outside uniformed battalions, organizations or associations. A statement of the reasons why such use of regimental names and numbers should be stopped has been signed by the following officers of the National Guard in this city and Brooklyn:

Emmons Clark colonel 7th Regiment; George D. Scott, colonel 1st. Rederied Unbekant, colonel 11th Regiment; James H. These ex-members of militia organizations are legally exempt from military duty, and their appearance in public parades in ostentations military uniforms is said to be without excuse or apology. These organizations appearing in public as made up of "veterans," are said also to be discourteous to the veterans of the late war as well as those who, by long service and mature years, may be fairly entitled to that designation.

Associations of the veteran and exempt members of the National Guard, for benevelent and social purposes, are approved and encouraged; but the uniformed battalions are pronounced a positive detriment to the regiments whose names and numbers they without authority assume.

DR. CROSBY BEFORE THE BAPTISTS.

The Rev. Dr. Thomas Armitage presided at the meeting of Baptist preachers at No. 9 Murray-st. yesterday. It was amounced that negotiations were in progress to transfer the library of the American and Foreign Bible Society, which is about going out of existence, to the conference, from which it originally came. William F. Round, secretary of the National Prison Association, made an appeal in behalf of that association, and stated that if those present had seen the abuses in the prisons of this state that he had seen they would use-their best efforts in the cause. The Rev. Dr. Howard Crosby delivered an address on "Israel in the Time of the Kings and the Judges." He asserted that there was no man in modern times whose writings had as much evil influence as Ewald, with his rationalistic theories. The books of Kings and Judges, he said, were not designed as a history in crienso of the Israelitish people, but rather a story of their falling-away from God, and their punishment. Ewald's teachings had invaded theological seminaries and even the pulpit, and the Word of God was being undermined, and the tendency was to return to nature as a teacher rather than revelation. David, though a good man personally, helped the degradation of the people. By proposing to place God in the temple, instead of the tabernacle chosen by Him, David degraded God more than if he had let Him alone. In commenting on the address Dr. Samson said that all the grand thinkers of to-day stood for supernaturalism in religion, and that there was not an evolutionist in the French Academy. DR. PETROLEUM DROPS BELOW A DOLLAR.
Further excitement attended the dealings at the Petroleum Exchanges yesterday and continued depression marked the course of the speculation. The news received from the oil regions was favorable to the "bults," and many brokers covered their "shorts" and bought some stock in expectation of a rafly. They were disappointed, however, and after feverish and rapid variations all day, in the last hour the price of certificates fell to 99% cents a barrel. This was the first time that the petroleum market has sold below \$1 a barrel since last spring. The total dealings at the two exchanges amounted to over 13,000,000 barrels. The first failure of any magnitude which has occurred as the result of the recent decline was announced at the New-York Mining Stock and National Petroleum Exchange. John Q. Savage, a well-known broker, sent notice to the Exchange of his inability to meet his engagements. Sales, under the rules, were made for his account aggregating 215,000 barrels. The differences actually to be settled under these contracts could not be learned. The best informed brokers estimate the amount at at least \$10,000. Mr. savage is an old member of the Mining Board, and at one time dealt largely in mining stocks. Of late he has been operating to a considerable extent in oil. PETROLEUM DROPS BELOW A DOLLAR.

(A HUSBAND'S BRUTALITY TO HIS WIFE. Charles H. Lignot, of Bidwell-ave., Jersey City, was arraigned before Police Justice Stilsing yesterday morning, on a charge of atrocous assaunt and battery on his wife. Mrs. Lignot was unable to appear in court, and it was stated that she was in a critical condition from her injuries. Officer Creed, who arrested the prisoner, said that he was called to the house and found Mrs. Lignot in a pitrable condition. Some six weeks ago her husband had stabled her in the abdomen with a sharp-pointed stick, making a wound which had to be sewed up. That wound, which was partly healed, was opened afresh in this last affray, and the woman became very weak from loss of blood. Her head was cut in several places from blows inflicted with a sancer held edgewise. The brutal husband also lacerated her wrist and hand in a frightful manner with his teeth and inflicted other wounds. The prisoner was remanded to await the result of his victim's injuries. Mrs. Lignot informed the police yesterday that her husband killed a man in Cincinnati.

In the Passaic County Court of Oyer and Terminer at Paterson, N. J., yesterday, Judge Dixon pronounced sentence on John Walker, convicted of murder in the second c-gree for killing William Prazier. The Judge read the prisoner a severe lecture on the wickedness of going armed. He also expressed his indignation at the prevalence of Sunday liquor selling as shown in the evidence, and his regret that the persons who sold Walker liquor could not be made to share his sentence. The Court imposed upon Walker the full penalty of the law—twenty years in the State Prison.
